## PROFILE

Master of Science student in Innovation Project Management and Entrepreneurship (IRIIG), I am looking for an 18 to 24-month work-study placement in project management and digital transformation. My background combines team coordination, needs analysis and communication. I want to contribute to innovation projects and to the evolution of tools and processes, working with business and technical teams.

## SKILLS

**Project management :** team coordination, task organization, deliverable tracking, deadline management, agile methods

**Analysis and innovation :** needs analysis, user-centered design, technology and competitive watch, information synthesis, problem solving, iteration

**Tools :** ClickUp, Trello, Coda, GitHub, TortoiseSVN, Google Workspace, Microsoft Office, Photoshop, InDesign

**Strengths :** efficiency, creative curiosity, analytical and synthesis skills

## PROFESSIONAL EXPERIENCE

**Bakery Sales Assistant – Paneterra** 2022 – 2025

- Led the team and met order preparation deadlines
- Managed inventory and restocking
- Worked across both sales and bread production
- Listened to and advised customers

**Level Designer (workshop) – GAMESUP** 2022 – 2023

- Co-led the project and coordinated the art and technical teams
- Designed and iterated on several game levels, managing navigation and player experience at each stage
- Identified and fixed programming errors
- Maintained the game's level design documentation

**Assistant Community Manager Intern – Agence Crieur Public** Summer 2019

- Extracted and sorted the database of business partners
- Updated clients' Pinterest accounts
- Helped prepare monthly reports
- Carried out competitive monitoring and reported on development opportunities

## EDUCATION

**Master of Science in Innovation Project Management and Entrepreneurship – IRIIG** 2026 – 2028

- Complex project management, innovation methodologies and design thinking, business plans and business models

**Bachelor in Game Design and Production – GAMESUP** 2019 – 2023

- Led production of a professional-grade deliverable with a team of 15 collaborators
- Tracked deliverables (prototype, art, sound and visual effects, communication materials) against technical constraints
- Agile production with ClickUp, with interdisciplinary artistic and technical increments

**Bachelor's Degree in Information and Communication (Licence) – Université Lyon 2** 2015 – 2019

- Analysis and creation across different media, technology watch and digital data organization, internal and external corporate communication

## LANGUAGES AND INTERESTS

**Languages :** French (native), English (professional), Spanish (school level)

**Interests :** scouting, tabletop role-playing games (Dungeons & Dragons), Warhammer
